Trade Center site, from security design through construction, occupancy and operations. (11/11/05) [http://www.signonsandiego.com/uniontrib/20051111/news_1b11saic.html](http://www.signonsandiego.com/uniontrib/20051111/news_1b11saic.html)

36. Here, I also confirm that the effects of DEW are still ongoing by presenting evidence associated with the current cleanup and the effects of DEW on the Bankers Trust building.

**Fixing BT before taking it apart, Bankers Trust (Deutsche Bank)**

Figure 48. From FEMA report: [Link/pdf](http://www.signonsandiego.com/uniontrib/20051111/news_1b11saic.html) (archived)

Figure 49. attachment6.php (7/7/07)

Figure 51.

Figure 53. The structural and cosmetic damage to the building has been rehabilitated. (07/28/06)
2007 June - Dismantling has started: It is being dismantled piece by piece.

2007 September: This was taken a couple of weeks after the fire that killed three firefighters.
Figure 61. Photo from soon after 9/11/01. (09/?/01) Source:
There seems to be a trend for where the really furry-looking rust is. (WTC2 was across the street, to the right of where the first photo was taken.) That red furry-looking beam in the center of the photo is incredible! How many years at the bottom of the ocean would be required to do that?  17bank_CA07.jpg (01/?/07) Source:

Figure 62. This is Bankers Trust being taken apart. Recognize any "rustification" out there?

Figure 63. As more and more beams and columns are removed, what was once an enclosed building opens up to the sky.

Figure 64. Once the concrete slab and metal decking are removed, what remains is a steel skeleton of each floor. There is little rust in the southwest corner of the building, even though it is open during the deconstruction from the top down.
It appears that the folks in charge of Bankers Trust were unaware of the non-self-quenching nature of the process of molecular dissociation that was initiated on 9/11/01.

**Disintegrating Beams?**

![Figure 65.](wtc_new_map.jpg)  
The old PATH train station used to be below the area between the original WTC 4 & 5 and where the new Tower 3 is, including adjacent areas.

![Figure 66.](061200_HMdemo03.jpg)  
Why is this inspection being done with white hazmat suits? This is the area where the old PATH terminal was.

**Ongoing Rapid Rusting**

Across from WTC7, they are building the **forth temporary PATH train** station since 9/11/01.

![Figure 67.](061200_HMdemo03.jpg)  
New beams rusted. June 2006

![Figure 68.](061200_HMdemo03.jpg)  
Infected beams removed, probably within days.
New beams. Nearly instantaneous rust. This is not normal, especially for treated and painted beams of structural steel. This is the kind of rust you might expect to see in an iron skillet left in standing water.
Knows the effects of DEW
This is the second temporary PATH train station since 9/11/01.
This is the third temporary PATH train station since 9/11/01.

ARA is contracted to have comprehensive understanding of all weapons of mass destruction (WMD), including DEW.

**ARA - Federal Contract Vehicles**

[http://www.ara.com/about/contracts.htm](http://www.ara.com/about/contracts.htm)

Quoting ARA:

<table>
<thead>
<tr>
<th>Weapons of Mass Destruction-Defeat Technology (WMD-DT IDIQ)</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Contract:</strong> DTRA01-03-D-0014</td>
</tr>
<tr>
<td><strong>Scope:</strong> Purpose is to support all present and future DTRA Counter WMD Technologies Directorate (CX) activities. These activities include supporting other DTRA directorates and providing operational support to the Combatant Commanders and their staffs. Additionally, the scope also includes supporting other federal, state and local government activities. Orders issued pursuant to this contract may be placed by Federal Agencies other than DTRA. Federal Agencies other than DTRA desiring to place orders under this contract shall contact the DTRA Contracting Officer, Ms. Kathryn Cooper, (703) 767-3503, for prior approval. This approval shall be obtained for each order.</td>
</tr>
<tr>
<td><strong>Period of Performance:</strong> Active thru May 2008 + 5 year option</td>
</tr>
<tr>
<td><strong>Contact:</strong> Rob Sues (703) 329-0200</td>
</tr>
</tbody>
</table>

To repeat, "**Weapons of Mass Destruction-Defeat Technology (WMD-DT IDIQ)**" and "Purpose is to support all present and future DTRA Counter WMD Technologies Directorate (CX) activities." Presumably ARA was chosen for this contract because it is a leading firm in WMD technologies. Obviously ARA has expertise is all WMD technologies.

ARA supports DTRA research and development. The Defense Threat Reduction Agency (DTRA)
