36. Here, I also confirm that the effects of DEW are still ongoing by presenting evidence associated with the current cleanup and the effects of DEW on the Bankers Trust building.

Fixing BT before taking it apart, *Bankers Trust (Deutsche Bank)*

There seems to be a trend for where the really furry-looking rust is. (WTC2 was across the street, to the right of where the first photo was taken.) That red furry-looking beam in the center of the photo is incredible! How many years at the bottom of the ocean would be required to do that? 17bank_CA07.jpg (01/?/07)

Figure 62. This is Bankers Trust being taken apart.
Recognize any "rustification" out there?

Figure 63. As more and more beams and columns are removed, what was once an enclosed building opens up to the sky.

Figure 64. Once the concrete slab and metal decking are removed, what remains is a steel skeleton of each floor. There is little rust in the southwest corner of the building, even though it is open during the deconstruction from the top down.

It appears that the folks in charge of Bankers Trust were unaware of the non-self-quenching nature of the process of molecular dissociation that was initiated on 9/11/01.

Disintegrating Beams?

Figure 65. The old PATH train station used to be below the area between the original WTC 4 & 5 and where the new Tower 3 is, including adjacent areas..

Ongoing Rapid Rusting

Across from WTC7, they are building the forth temporary PATH train station since 9/11/01.

Figure 72. (06/2/07):

Figure 73. (07/2/07)

Figure 74. (09/2/07):

New beams. Nearly instantaneous rust. This is not normal, especially for treated and painted beams of structural steel. This is the kind of rust you might expect to see in an iron skillet left in standing water.

Document and Evaluate the Steel Recovered from the WTC Towers

ARA is contracted to have comprehensive understanding of all weapons of mass destruction (WMD), including DEW.

ARA - Federal Contract Vehicles

<http://www.ara.com/about/contracts.htm>

Quoting ARA:

Weapons of Mass Destruction-Defeat Technology (WMD-DT IDIQ)

Contract: DTRA01-03-D-0014

Scope: Purpose is to support all present and future DTRA Counter WMD Technologies Directorate (CX) activities. These activities include supporting other DTRA directorates and providing operational support to the Combatant Commanders and their staffs. Additionally, the scope also includes supporting other federal, state and local government activities. Orders issued pursuant to this contract may be placed by Federal Agencies other than DTRA. Federal Agencies other than DTRA desiring to place orders under this contract shall contact the DTRA Contracting Officer, Ms. Kathryn Cooper, (703) 767-3503, for prior approval. This approval shall be obtained for each order.

Period of Performance: Active thru May 2008 + 5 year option

Contact: Rob Sues (703) 329-0200

To repeat, "**Weapons of Mass Destruction-Defeat Technology (WMD-DT IDIQ)**" and "Purpose is to support all present and future DTRA Counter WMD Technologies Directorate (CX) activities." Presumably ARA was chosen for this contract because it is a leading firm in WMD technologies. Obviously ARA has expertise in all WMD technologies.

ARA supports DTRA research and development. The Defense Threat Reduction Agency (DTRA)
